IMPORTANT INFORMATION

A copy of ID and the first page of your lease agreement/ rental contract must be attached to this application. NB: NO NUMER WILL BE LOADED WITHOUT THESE DOCUMENT!

If the person on the lease agreement/rental contract is different than the applicant a letter must be provided by the person on lease agreement/rental contract consenting to the application of cell2gate access.

The scheme has a cell2gate system installed. If your number is loaded you will be able to phone the applicable gate number in order to open the gate from anywhere. Your guest can contact you to let you know they are at the gate and then you can phone the gate to open.

VERY IMPORTANT: the cell2gate system is primarily used as an intercom system, i.e. that you can open for visitors without having to go to the gate personally.

It is HIGHLY recommended that the cell2gate system not be used as a primary access to the premises to avoid any inconveniences when the system is down and/ or the network are experiencing problems. (At SCHEMES where the cell2gate has been set as the primary access for increased security, this does not apply)

Terms: application submitted after 15:00 will be processed the next day
